

Name _____
iNaturalist Username _____
Period _____

iNaturalist Contest Submission

This form is due _____

Use the grading rubric “excellent” column (within “iNaturalist”) for guidance.

Focus on NATIVE organisms and a VARIETY of TAXA.

NOTE: **Group member(s) of this winner** could also be a winner **IF** (and only if) they **regularly** assist with genuine identification and support of research grade observations of **each** of their group members as documented through iNaturalist.org. If the group members did NOT **regularly** respond to each of the iNaturalist’s observations, this/these group members will not also win.

1. Click “View leaderboard” on our iNaturalist project page.
2. Click on your iNaturalist username found here.
3. You will see “Contributions from”(your iNaturalist username) to (our project)”. If some or all of your observations are not here, you did not add some or all of your observations to the project so you should do that now!
4. List your “Stats”:
_____ Taxa Observed
_____ Total Observations
_____ Research-Grade Observations
_____ Research-Grade Observations ID’d to Species or Lower
